

Department: Engineering
Position: Software Engineer – Front-End
Location: Dublin - City Centre

About Asavie

Asavie is an Equal Opportunity Employer that offers a competitive salary, benefits & the professional advantages of an environment that supports your development & recognizes your achievements. Asavie offers an inclusive environment where employees have the opportunity to succeed and diversity is embraced as a competitive advantage in the marketplace.

The passion that our people bring to their work extends to their private worlds, and Asavie encourages a healthy balance between the two.

Asavie Engineering Department values training and education and is dedicated to providing the tools and training in support of our employee's professional development.

Is this role for you?

As a front-end developer within a new product team, you will help drive the development of a brand new suite of products built on Asavie's market-leading network-as-a-service platform. You will have previously built several sophisticated modern web applications, and have hands-on experience with service-oriented architecture. The ideal candidate will be well-versed in all aspects of modern web application design, and be comfortable working with Product Management and Product Design as part of an Agile team.

This is a great opportunity to join Asavie's rapidly expanding engineering team, and play a pivotal role in this exciting phase of the company's continuing growth.

Requirements:

- 3+ years commercial front-end dev experience
- Expert knowledge of core web technologies (JavaScript, CSS3, HTML5)
- Strong experience with 2 or more front-end MV* frameworks (e.g. AngularJS, BackboneJS, ASP.NET MVC etc.)
- Experience with CSS Pre-processors (Less/Sass/Stylus etc.)
- Strong experience with modern software development methodologies and practises.
- Excellent communication skills, and attention to detail.
- Degree in Computer Science or similar

Desirable:

- Comfortable working with designers as part of a Product Team
- Familiarity with cloud services like Azure/Amazon AWS.
- Experience with Continuous Integration, automated testing and deployment (e.g. Jenkins)

How to Apply

If you think you have what it takes to really make a contribution in our company, then email your CV and cover letter to careers@asavie.com. We offer higher than average compensation reflecting the calibre of person required.
