

**Position: Junior Software Engineer – Platform**

**Dublin City Centre / Dublin**

**Salary Range: €35-€45K**

**Permanent full-time**

An exciting opportunity to join a growing indigenous technology company based in Dublin. Due to continued excellent growth over the last number of years we are seeking to recruit a candidate of the highest calibre to join our team and assist us in the development required to expand the features and scalability of our core Asavie Passbridge platform. You will be motivated and enthusiastic about our technology, our products and our culture.

The ideal candidate will be well versed in more than one mainstream programming language, preferably including C# & .NET.

This engineer will play a key role in:

- The development required to expand the features and scalability of the core Asavie Passbridge platform
- Maintaining and extend the core Asavie Passbridge system  
Initially this engineer will focus on the design and implementation of a process for automating the deployment of separate platform integration test instances
- Moving on to maintenance and extension of the core Passsbridge platform features
- Maintenance, provisioning, automation of a new Passbridge instance
- Move on to working on SD as required by upcoming products

**Required:**

- Up to 2 years .NET software development experience
- Degree in Computer Science or similar
- C# .NET v4.0 and later
- Experience with scripting languages (Perl/Powershell/Python/Javascript)
- Excellent communication skills, and attention to detail
- Knowledge of IP Networking
- Desire to be part of a motivated and successful team operating on the cutting edge of software defined networking (SDN) technology
- Willingness and hunger to learn and develop
- Ambition to help drive the future success and progressive culture of Asavie

**Desirable:**

- Familiarity with networking protocols (TCP, UDP, ICMP) and remote access authentication protocols (RADIUS)
- Experience with PKI based on X.509 certificates
- ASP.NET Web API/REST development
- ADO.NET interfacing to Microsoft SQL Server 2008 or later

**About Asavie**

Asavie is the world's leading developer and provider of cloud-delivered, secure connectivity services to mobile Carriers. Asavie's unique Software-as-a-Service (SaaS) connectivity solution delivers seamless connectivity to the Carrier's customer, regardless of network, technology and locations. This market is poised to grow from zero to almost a billion dollars per year in the next 5-10 years. Asavie has developed world-class products over the past few years and has now reached significant sales and strong profitability.

**How to Apply**

If you think you have what it takes to really make a contribution in our company then email your CV and cover letter to [careers@asavie.com](mailto:careers@asavie.com).
