**Department:**   Engineering
**Position:**   Software Engineer – Back-end /.Net
**Location:**   Dublin - City Centre

**About Asavie**

Asavie is an Equal Opportunity Employer that offers a competitive salary, benefits & the professional advantages of an environment that supports your development & recognizes your achievements. Asavie offers an inclusive environment where employees have the opportunity to succeed and diversity is embraced as a competitive advantage in the marketplace.

The passion that our people bring to their work extends to their private worlds, and Asavie encourages a healthy balance between the two.

Asavie Engineering Department values training and education and is dedicated to providing the tools and training in support of our employee's professional development.

**Is this role for you?**

As a back-end developer within a new product team, you will help drive the development of a brand new suite of products built on Asavie's market-leading network-as-a-service (NaaS) platform. You will have previously built several sophisticated applications and/or services, and have hands-on experience with (micro)service-oriented architecture. The ideal candidate will have experience building on and deploying to cloud services like Microsoft Azure and/or Amazon AWS, and be comfortable working as part of an Agile team.

This is a great opportunity to join Asavie's rapidly expanding engineering team, and play a pivotal role in this exciting phase of the company's continuing growth.

**Requirements:**

- 3+ years commercial software development experience
- Strong experience with C#/.Net.
- Strong experience with modern software development methodologies and practises.
- Solid knowledge and understanding of API development, standards and best practises.
- Excellent communication skills, and attention to detail.
- Degree in Computer Science or similar

**Desirable:**

- Experience running production services in Azure and/or Amazon AWS.
- Proficiency with SQL and/or NoSQL databases.
- Experience with Continuous Integration, automated testing and deployment (e.g. Jenkins)

**How to Apply**

If you think you have what it takes to really make a contribution in our company, then email your CV and cover letter to careers@asavie.com. We offer higher than average compensation reflecting the calibre of person required.
