

Department: Product Management
Position: UX Designer
Location: Dublin - City Centre

About Asavie

Asavie is an Equal Opportunity Employer that offers a competitive salary, benefits & the professional advantages of an environment that supports your development & recognizes your achievements.

As part of our continued growth, we are looking for talented individuals with an entrepreneurial spirit, who have the drive and passion to succeed and want to be part of an exciting, young company going places.

Due to our continuing expansion, we wish to recruit an YX Designer to join our Product Management team, to be based in our offices in Dublin, Ireland.

About the Role

Experienced UX Designer required for top Dublin company.

Asavie are a growing telecoms company based on Baggot Street in Dublin's City Centre. Due to continued business growth in both the IOT and Enterprise mobility space, we have an exciting vacancy for an experienced UX Designer to join our rapidly expanding family! This is an interesting role with a strong emphasis on UX.

The successful candidate will join our organisation at a pivotal time in our growth as we expand our team with talented and motivated experts who help us deliver our goal of "Making Connectivity Simple". They will join a growing product team and will work with Product Managers and Engineers to deliver cutting edge web design and technology.

Roles and Responsibilities

- Work in an agile environment to ensure UX needs are met for new product features
- Effectively communicate the rationale behind design solution
- Create and present wireframes/prototypes
- User research and testing of product
- Adapt product features based on usability test results
- Liaise with agile team members to maintain and improve usability methods.
- Work within & contribute to developing UX guidelines
- Being up to date on best practice relating to UI design and usability research.
- Travel: Less than 10%

Experience required

- 5+ years' experience in a similar role with a strong emphasis on usability
- Background in telecoms or enterprise software design highly desirable
- Ability to work well in teams and collaborative environments
- Strong communication and interpersonal skills with the ability to influence others and communicate with senior stakeholders
- Able to demonstrate experience of design process through full lifecycle, concept to product
- Demonstrated experience in designing successful information architecture and intuitive user journeys
- Proven experience in Prototyping, Wireframe and Mock-up
- Accustomed to conducting user testing (both local and on-site) and analysing user requirements

How to Apply

If you think you have what it takes to really make a contribution in our company, then email your CV and cover letter to careers@asavie.com. We offer higher than average compensation reflecting the calibre of person required.
