

Position: Senior Project Manager

Dublin City Centre / Dublin

Permanent full-time

Salary: Competitive

Are you looking to own & deliver projects which make a visible difference to a company's success?

Asavie is currently seeking a Project Manager to coordinate and manage cross departmental projects for this global SaaS provider. Delivery activities for a wide variety of projects including but not limited to customer facing deliveries, software release management and internal infrastructure projects.

This role manages projects that are high visibility and sometimes complex. This includes directing the activities of all project / virtual team members to accomplish project objectives while demonstrating the skill and experience to deliver projects on time and exceed internal and customer expectations.

The PM is responsible for the success of the project and has authority and overall responsibility for obtaining all project-related commitments and engaging the necessary resources.

The PM will be required to manage, end-to-end, all project schedules, budgets, milestones and deliverables associated with the project. The deliverables will include: detailed work breakdown, scheduling, project plans and milestones, status reporting, risk and jeopardy notifications, change control, and financial reporting.

Responsibilities:

- Loves problem solving and decision making through strong collaboration and influencing skills.
- Manages project schedules and budgets.
- Manages project team(s) & project communications & delivery commitments.
- Leads a virtual team of cross department resources (engineers, technologists, technical writers, service desk, marketing, sales) to successfully deliver significant projects in a fast moving & creative environment.
- Partners with senior business leaders within internal and external organizations to deliver successful project
- Responsible for all aspects of the project lifecycle including risks and issues and loves to deliver results.

Required skills:

- Excellent communication and organisational skills
- Ability to work in a self-directed manner and with minimal supervision.

Professional Background Required:

- 7 or more years of project management experience (PMP or Prince2 certified)
- A technology or telecoms background is preferable
- Strong experience in leading team, collaboration and resolving blockers
- Financial management including budget management, budget vs. actual reconciliation
- Project management tool knowledge
- Strong communication skills including strong written, verbal & presentation skills

Additional Information: The compensation package will reflect the skills and experience of the successful candidate.

About Asavie

Asavie is the world's leading developer and provider of cloud-delivered, secure connectivity services to mobile Carriers. Asavie's unique Software-as-a-Service (SaaS) connectivity solution delivers seamless connectivity to the Carrier's customer, regardless of network, technology and locations. This market is poised to grow from zero to almost a billion dollars per year in the next 5-10 years. Asavie has developed world-class products over the past few years and has now reached significant sales (~\$10m) and strong profitability.

How to Apply

If you think you have what it takes to really make a contribution in our company then email your CV and cover letter to careers@asavie.com. We offer higher than average compensation reflecting the calibre of person required.
